About Social

- Social is an innovative youth empowering organisation, based in South Africa.
- It bridges the gap between classroom learning and skills required for the actual world workforce.
- Social's aim is to empower their beneficiaries, help them find their purpose in life and equip them with social and entrepreneurial skills through training and skill development programmes

Problem Statement

WHO/WHAT/WHY?

Social needs to identify target customers, focus on their needs and demands, and develop an acquisition strategy in order to expand its market reach

Problem Identification and Target Customers

- Used the 2 principles of scalability: **replication** and **customization**
- Huge skill gap and problem of employability in India
- To get a better understanding of the problem, the group used 2 methodologies:
 - 1) **Quantitative analysis** (Customer survey)
 - 2) **Qualitative analysis** (Targeted phone calls)

brainstorming

If you are a university student aspiring to work after college, have you felt challenged in finding a job/internship ever?

If you answered yes to the previous question, what do you think is the reason behind that?

- Yes, it's a big problem
- Sometimes, yes
- No, never

survey

How clear are you about the skills necessary for you to find a good job in your discipline?

If given a chance to undertake an experiential learning program, which will impart practical, technical, and communication skills to make you more employable, would you like to attend it?

- Very clear
- Clear only to some extent
- Not clear at all

- Certainly yes
- Maybe
- No

survey

solution

brainstorming

If you answered yes to the above question, why do you think it's worth your time to attend such a program?

- College does not do a good job to make you 100% work ready
- You want to bolster your resume because it's hard to find work, as recruiters always look for experienced...
- It is something unique and it sounds interesting
- I want both genuine experience and an opportunity to learn and realise myself if the field I want to enter is genuinely fo...

ERRC Framework

Eliminate

- ❖ Need to go to third party institutions when there is a designated program at the university itself
- ❖ Expensive corporate training programs
- ❖ Unreliable certifications

Raise

- ❖ Youth employability and the number of students getting to experience real world work
- ❖ Brand awareness and market reach
- ❖ Options for employers

Reduce

- ❖ Effort put in by students to learn different skills from different places/platforms
- ❖ Frustration of not being able to get any experience/internships in college primarily due to lack of experience

Create

- ❖ An experience enabling platform where talent meets opportunity, empowers the youth
- ❖ Talented pool of work ready students
- ❖ Access to reliable courses

	Facts		Emotions		Benefit		Process		Ideas		Caution
Surveys/secondary data show that over 80% of employers believe there is a skill gap in India and students are not work ready after college. +Customer survey findings	Students restricted, confused, unaware and ambitious at the same time. First or second year students find it even hard to get experience and lack the knowledge of what it required. They deserve a platform.	Social's program will enable successful university to work transition, give them an opportunity to gain experience, productivity increases, better soft skills and other work related skills	Empathise and define the problem, understand the pain points, propose an experience enabling platform, empower beneficiaries by giving them opportunities for personal development	Could reach out to employers, include projects, immersive internships, interactive workshops for peer to peer learning, interview preparation etc., reach out to schools/universities	Getting the first employer or university/students on board with Social. May be considered too expensive or unreliable.						

Social's Proposed Solution and Plan of Action

Social's Vision: Shift the reality of their beneficiaries and empower them by giving them opportunities for their personal development.

Our Proposed Solution:- Be an enabler where talent meets opportunity and empowers the youth.

Introduce an Experiential Learning Programme that focuses on core employability skills that spill across disciplines, with the aim of making youth more employable. After training them, provide them with immersive internships/projects in Social or partner organisations/startups

Partner with Universities or exist as an independent organisation - propose yourself as an organisation that makes youth 'work ready' and upskills them in a complete manner and then provides them real life work experience

What skills do employers actually look for?

We reached out to founders of early stage startups/employers that hire from Ashoka and asked them the skills they look for while hiring. Then we used those skills to construct the curriculum of the youth empowering upskilling program that social will be offering to university students

We reached out to the following companies:-

- 1) EkAnek (Startup- Hires from Ashoka)
- 2) Ingenious Faces (Startup- Hires from Ashoka)
- 3) Favcy (Hires from Ashoka)
- 4) Adobe (Hires from Ashoka)
- 5) Woodsville Academy (early stage startup)
- 6) Finladder (early stage startup)

Proposed Design of the Programme

resources
prototypes

Focus on:

- 1) **Core Skills:** Problem solving aptitude, creativity, design thinking, critical thinking, entrepreneurial mindset, meeting targets, project management
- 2) **IT Skills:** MS Office Products, Project management tools, ability to work with data, content creation, digital marketing, data analysis using R or Python
- 3) **Soft Skills:** Communication (written and oral) and presentation skills, teamwork/collaboration, leadership
- 4) **Project Management Skills:** Lean Six Sigma Methodology
- 5) One on One Counselling/ Interview Preparation etc.
- 6) Increase credibility by getting speakers, practitioners etc. for sessions.
